AND

Rosko was given a special award for being the only BCMC participant in our recent Sprint Race.

When asked, "Why is the motorcycle up-side-down?", Rosko replied, "Because that's how I spent most of my day!"

Ed Thomas who rides with Bill Renard in Warrior Watch

1st place

Mary Bruno who parked right by the front door so nobody would have to walk very far to see her motorcycle.

It was a fun and worth-while day blessed with gorgeous warm & sunny Fall weather.

Fall Safety Course 10/11/2020

Thanks to Bruce MacPhail, former Motorcycle Safety Program instructor, who once again led our BCMC safety course.

The classroom portion was held outside this time.

Then it was over to North Penn HS to practice maneuvers.

After a ride, we went for our food reward.

Dry Run for the Fall Joy Ride

"Where did Sparky just take us?"

Unfortunately, none of our Road Captains could find Sparky's route on GPS! Uh oh!!!

10/17/2020

You can call it the Joy Ride, The Challenge Run, the Fall Foliage Ride, the Krazy Koffin Run...but you must call it a SUCCESS!!

There are many folks who deserve a hand!

Like Mole!

It was so much fun, Lori was in stitches!

The "AYES" have it!

This was copied from a friend. Sounded like good advice.

Tips for Riding....

- 1. Slow down a little. That S curve is sharper than you think!**
- 2. Just because your bike can go 100 mph between two stoplights doesn't mean you should do it.**
- 3. Maintenance is that un-fun thing you do to keep from walking home!**
- 4. When in doubt, always take a jacket. When not in doubt, still take the jacket.**
- 5. It always seems farther back home than it was to your destination. Don't ride so far that it stops being fun!**
- 6. Ride safe! No one wants to attend your funeral and talk about how much you loved bikes. They want to go riding with you and talk about what a great time you had.**
- 7. Stop for gas even if you don't need it. You may wish you had later.**
- 8. Chrome won't get you laid, unless you're already good looking.**
- 9. WAVE!!!! Even if the rider is on a scooter or a different brand. They just might be saving for their "Dream" motorcycle.**
- 10. Don't ride beyond your skill level trying to keep up with the rider in front of you.**
- 11. Keep your passenger feeling safe. They're riding with you because they trust you. Don't scare them & ruin motorcycling for them.**
- 12. Buy quality rain gear. Being wet when it's warm is tolerable. Being wet when it's cold is miserable.**
- 13. Riding 500 miles a day on the interstate is do-able. Riding 500 miles a day in the mountains is impossible. Allow yourself time to "see the sights".**
- 14. The larger the group, the longer it takes to get there.**
- 15. The "ride" is about the journey, not the destination.**

Our appreciation goes out to Mole who made the arrangements for the 10/23/20 social dinner, and to Road Captain, Jim, who got us there safely.
